MONTAGEANLEITUNG

Bitte lesen Sie alle Anweisungen in der Bedienungsanleitung sorgfältig durch, bevor Sie das Gerät in Betrieb nehmen. Die 50NRTH GmbH behält sich das Recht vor, die Bedienungsanleitung eindeutig auszulegen. Das Aussehen des Produkts richtet sich nach dem Produkt, das Sie erhalten haben. Bitte haben Sie Verständnis dafür, dass wir Sie nicht erneut informieren, wenn es technische Updates für unser Produkt gibt.

ASSEMBLY INSTRUCTIONS

Please read all instructions in the manual carefully before operating the product. 50NRTH GmbH reserves the right to interpret the manual. The appearance of the product is based on the product you have received. Please understand that we may not provide separate notifications regarding technical updates to the product.

INSTRUKCJA MONTAŻU

Przed uruchomieniem produktu należy dokładnie przeczytać wszystkie instrukcje zawarte w podręczniku. Firma 50NRTH GmbH zastrzega sobie prawo do ostatecznej interpretacji instrukcji. Wygląd produktu zależy od otrzymanego modelu. Prosimy o zrozumienie, że nie będziemy osobno informować o aktualizacjach technicznych produktu.

NÁVOD NA MONTÁŽ

Pred uvedením výrobku do prevádzky si pozorne prečítajte všetky pokyny v návode na obsluhu. Spoločnosť 50NRTH GmbH si vyhradzuje právo na konečný výklad návodu. Vzhľad produktu závisí od výrobku, ktorý ste dostali. Prosíme o pochopenie, že o technických aktualizáciách produktu nemusíme poskytovať samostatné oznámenia.

NÁVOD K MONTÁŽI

Před uvedením výrobku do provozu si pečlivě přečtěte všechny pokyny v návodu k obsluze. Společnost 50NRTH GmbH si vyhrazuje právo na konečný výklad návodu. Vzhled produktu odpovídá výrobku, který jste obdrželi. Berte prosím na vědomí, že o technických aktualizacích výrobku nemusíme poskytovat samostatná oznámení.

MONTAGEHANDLEIDING

Lees alle instructies in de handleiding zorgvuldig door voordat u het product in gebruik neemt. 50NRTH GmbH behoudt zich het recht voor om de handleiding te interpreteren. Het uiterlijk van het product is afhankelijk van het ontvangen product. Houd er rekening mee dat wij geen afzonderlijke kennisgeving verstrekken over technische updates van het product.

NOTICE DE MONTAGE

Veuillez lire attentivement toutes les instructions du manuel avant de mettre le produit en service. 50NRTH GmbH se réserve le droit d'interpréter le manuel. L'apparence du produit dépend du produit que vous avez reçu. Veuillez comprendre que nous ne fournirons pas nécessairement de notification distincte concernant les mises à jour techniques du produit.

ISTRUZIONI DI MONTAGGIO

Leggere attentamente tutte le istruzioni contenute nel manuale prima di utilizzare il prodotto. 50NRTH GmbH si riserva il diritto di interpretare il manuale. L'aspetto del prodotto dipende dal prodotto ricevuto. Si prega di comprendere che potremmo non fornire notifiche separate riguardo agli aggiornamenti tecnici del prodotto.

SZERELÉSI ÚTMUTATÓ

A termék üzembe helyezése előtt figyelmesen olvassa el a használati útmutató összes utasítását. A 50NRTH GmbH fenntartja a jogot az útmutató végső értelmezésére. A termék megjelenése a kapott terméktől függ. Kérjük megértésüket, hogy a termék műszaki frissítéseiről nem feltétlenül küldünk külön értesítést.

INSTRUCȚIUNI DE ASAMBLARE

Vă rugăm să citiți cu atenție toate instrucțiunile din manual înainte de punerea în funcțiune a produsului. 50NRTH GmbH își rezervă dreptul de a interpreta manualul. Aspectul produsului depinde de produsul primit. Vă rugăm să înțelegeți că este posibil să nu transmitem notificări separate privind actualizările tehnice ale produsului.

DE – Sicherheitshinweise

- Stellen Sie das Gewächshaus gemäß Montageanleitung auf ebenem, tragfähigem Untergrund standsicher auf und sichern bzw. verankern Sie es zuverlässig gegen Kippen, Verrutschen und Windanhebung.
- Kontrollieren Sie regelmäßig Verbindungen, Beschläge, Befestigungen bzw. Verankerungen, Holzteile und Platten/Verglasung; ziehen Sie lose Teile nach und ersetzen Sie beschädigte, verrottete oder gerissene Bauteile vor der weiteren Nutzung.
- Türen und, sofern vorhanden, Dachfenster langsam und kontrolliert öffnen und schließen; bei starkem Wind oder Sturm geschlossen und gesichert halten.
- Klettern Sie nicht auf Rahmen oder Dach und belasten Sie das Dach nicht; entfernen Sie Schneeansammlungen vorsichtig, ohne das Dach zu betreten.
- Tragen Sie bei Montage und Wartung geeignete Schutzhandschuhe und vermeiden Sie Verletzungen durch Holzsplitter oder scharfe Kanten beschädigter Bauteile.
- Halten Sie offene Flammen, Grillgeräte und starke Wärmequellen vom Gewächshaus fern.
- Entsorgen Sie Holz, Platten/Verglasung und Metallbeschläge getrennt nach den örtlichen Vorschriften; nicht verbrennen.

EN – Safety Instructions

- Install the greenhouse in accordance with the assembly instructions on a level, load-bearing surface and securely fix or anchor it against tipping, shifting and uplift by wind.
- Regularly inspect joints, fittings, fixings or anchors, wooden parts and panels/glazing; tighten loose parts and replace damaged, rotten or cracked components before further use.
- Open and close doors and, if present, roof vents slowly and in a controlled manner; keep them closed and secured during strong winds or storms.
- Do not climb on the frame or roof and do not place loads on the roof; carefully remove accumulated snow without stepping onto the roof.
- Wear suitable protective gloves during assembly and maintenance and avoid injury from wood splinters or sharp edges on damaged components.
- Keep open flames, barbecues and strong heat sources away from the greenhouse.
- Dispose of wood, panels/glazing and metal fittings separately in accordance with local regulations; do not burn them.

PL – Instrukcje bezpieczeństwa

- Szklarnię należy ustawić zgodnie z instrukcją montażu na równym, nośnym podłożu oraz solidnie zamocować lub zakotwić, aby zabezpieczyć ją przed przewróceniem, przesunięciem i podrywaniem przez wiatr.
- Należy regularnie kontrolować połączenia, okucia, mocowania lub kotwy, elementy drewniane oraz płyty/oszklenie; poluzowane elementy dokręcić, a uszkodzone, spróchniałe lub pęknięte części wymienić przed dalszym użytkowaniem.
- Drzwi oraz, jeśli występują, okna dachowe należy otwierać i zamykać powoli i w sposób kontrolowany; podczas silnego wiatru lub burzy powinny być zamknięte i zabezpieczone.
- Nie należy wchodzić na ramę ani dach ani obciążać dachu; nagromadzony śnieg usuwać ostrożnie bez wchodzenia na dach.
- Podczas montażu i konserwacji należy nosić odpowiednie rękawice ochronne i uważać na drzazgi oraz ostre krawędzie uszkodzonych elementów.
- Otwartego ognia, grilli i silnych źródeł ciepła nie należy używać w pobliżu szklarni.
- Drewno, płyty/oszklenie i metalowe okucia należy utylizować oddzielnie zgodnie z lokalnymi przepisami; nie spalać.

SK – Bezpečnostné pokyny

- Skleník postavte podľa montážneho návodu na rovný a únosný podklad a spoľahlivo ho upevnite alebo ukotvite proti prevráteniu, posunutiu a nadvihnutiu vetrom.
- Pravidelne kontrolujte spoje, kovania, upevnenia alebo kotvenie, drevené časti a dosky/zasklenie; uvoľnené časti dotiahnite a poškodené, zhnité alebo prasknuté diely pred ďalším používaním vymeňte.
- Dvere a, ak sú k dispozícii, strešné okná otvárajte a zatvárajte pomaly a kontrolované; pri silnom vetre alebo búrke ich nechajte zatvorené a zaistené.
- Nelezte na rám ani strechu a strechu nezaťažujte; nahromadený sneh opatrne odstráňte bez vstupovania na strechu.
- Pri montáži a údržbe používajte vhodné ochranné rukavice a dávajte pozor na drevené triesky a ostré hrany poškodených dielov.
- Otvorený oheň, grily a silné zdroje tepla udržiavajte mimo skleníka.
- Drevo, dosky/zasklenie a kovové kovania likvidujte oddelene podľa miestnych predpisov; nespájajte ich.

CZ – Bezpečnostní pokyny

- Skleník postavte podle montážního návodu na rovný a únosný podklad a spolehlivě jej upevněte nebo ukotvěte proti převrácení, posunutí a nadzvednutí větrem.
- Pravidelně kontrolujte spoje, kování, upevnění nebo kotvení, dřevěné části a desky/zasklení; uvolněné části dotáhněte a poškozené, shnilé nebo prasklé díly před dalším používáním vyměňte.
- Dveře a, jsou-li součástí výrobku, střešní okna otevírejte a zavírejte pomalu a kontrolované; při silném větru nebo bouři je ponechte zavřené a zajištěné.
- Nelezte na rám ani střechu a střechu nezatěžujte; nahromaděný sníh opatrně odstraňte bez vstupu na střechu.
- Při montáži a údržbě používejte vhodné ochranné rukavice a dávejte pozor na dřevěné třísky a ostré hrany poškozených dílů.
- Otevřený oheň, grily a silné zdroje tepla udržujte mimo skleník.
- Dřevo, desky/zasklení a kovové kování likvidujte odděleně podle místních předpisů; nespálujte je.

NL – Veiligheidsinstructies

- Plaats de kas volgens de montagehandleiding op een vlakke, draagkrachtige ondergrond en bevestig of veranker deze stevig tegen kantelen, verschuiven en opwaaien door de wind.
- Controleer regelmatig verbindingen, beslag, bevestigingen of verankeringen, houten onderdelen en panelen/beglazing; draai losse onderdelen vast en vervang beschadigde, verrotte of gebarsten onderdelen vóór verder gebruik.
- Open en sluit deuren en, indien aanwezig, dakramen langzaam en gecontroleerd; houd deze bij harde wind of storm gesloten en vergrendeld.
- Klim niet op het frame of dak en belast het dak niet; verwijder opgehoopte sneeuw voorzichtig zonder het dak te betreden.
- Draag geschikte beschermende handschoenen tijdens montage en onderhoud en voorkom letsel door houtsplinters of scherpe randen van beschadigde onderdelen.
- Houd open vuur, barbecues en sterke warmtebronnen uit de buurt van de kas.
- Voer hout, panelen/beglazing en metalen beslag afzonderlijk af volgens de plaatselijke voorschriften; niet verbranden.

FR – Consignes de sécurité

- Installez la serre conformément à la notice de montage sur un sol plan et porteur et fixez-la ou ancrez-la solidement afin d'éviter tout basculement, déplacement ou soulèvement par le vent.
- Contrôlez régulièrement les assemblages, ferrures, fixations ou ancrages, les éléments en bois ainsi que les panneaux/vitrages ; resserrez les éléments desserrés et remplacez les pièces endommagées, pourries ou fissurées avant toute nouvelle utilisation.
- Ouvrez et fermez lentement et de manière contrôlée les portes et, le cas échéant, les fenêtres de toit ; maintenez-les fermées et sécurisées en cas de vent fort ou de tempête.
- Ne montez pas sur la structure ou le toit et ne chargez pas le toit ; retirez avec précaution les accumulations de neige sans monter sur le toit.
- Portez des gants de protection adaptés lors du montage et de l'entretien et évitez les blessures dues aux échardes ou aux arêtes vives des éléments endommagés.
- Maintenez les flammes nues, barbecues et fortes sources de chaleur à distance de la serre.
- Éliminez séparément le bois, les panneaux/vitrages et les ferrures métalliques conformément aux réglementations locales ; ne les brûlez pas.

IT – Istruzioni di sicurezza

- Installare la serra secondo le istruzioni di montaggio su una superficie piana e portante e fissarla o ancorarla saldamente contro ribaltamento, spostamento e sollevamento causato dal vento.
- Controllare regolarmente giunzioni, ferramenta, fissaggi o ancoraggi, parti in legno e pannelli/vetrature; serrare le parti allentate e sostituire i componenti danneggiati, marci o incrinati prima di continuare a utilizzare il prodotto.
- Aprire e chiudere lentamente e in modo controllato le porte e, se presenti, le finestre sul tetto; in caso di vento forte o tempesta mantenerle chiuse e bloccate.
- Non salire sul telaio o sul tetto e non caricare il tetto; rimuovere con cautela gli accumuli di neve senza salire sul tetto.
- Durante il montaggio e la manutenzione indossare guanti protettivi adeguati e prestare attenzione a schegge di legno e bordi taglienti di componenti danneggiati.
- Tenere fiamme libere, barbecue e forti fonti di calore lontano dalla serra.
- Smaltire separatamente legno, pannelli/vetrature e ferramenta metallica secondo le normative locali; non bruciarli.

HU – Biztonsági utasítások

- Az üvegházat az összeszerelési útmutató szerint sík, teherbíró aljzaton állítsa fel, és megbízhatóan rögzítse vagy horgonyozza le felborulás, elmozdulás és a szél általi megemelés ellen.
- Rendszeresen ellenőrizze a csatlakozásokat, vasalatokat, rögzítéseket vagy lehorgonyzásokat, a faelemeket és a paneleket/üvegezést; húzza meg a meglazult részeket, és további használat előtt cserélje ki a sérült, korhadt vagy megrepedt alkatrészeket.
- Az ajtókat és – ha vannak – a tetőablakokat lassan és ellenőrzöttén nyissa és zárja; erős szél vagy vihar esetén tartsa azokat zárva és rögzítve.
- Ne másszon a vázra vagy a tetőre, és ne terhelje a tetőt; a felgyülemlett havat óvatosan, a tetőre lépés nélkül távolítsa el.
- Összeszerelés és karbantartás közben viseljen megfelelő védőkesztyűt, és kerülje a faszilánkok, valamint a sérült alkatrészek éles szélei által okozott sérüléseket.
- Nyílt lángot, grillsütőt és erős hőforrást tartson távol az üvegházról.
- A fát, paneleket/üvegezést és fém vasalatokat a helyi előírások szerint elkülönítve ártalmatlanítsa; ne égesse el.

RO – Instrucțiuni de siguranță

• Instalați sera conform instrucțiunilor de montaj pe o suprafață plană și portantă și fixați-o sau ancorați-o sigur împotriva răsturnării, deplasării și ridicării de către vânt. • Verificați periodic îmbinările, feroneria, elementele de fixare sau ancorare, componentele din lemn și panourile/geamurile; strângeți piesele slăbite și înlocuiți componentele deteriorate, putrezite sau crăpate înainte de utilizarea ulterioară. • Deschideți și închideți lent și controlat ușile și, dacă există, ferestrele de acoperiș; în caz de vânt puternic sau furtună, mențineți-le închise și asigurate. • Nu vă urcați pe cadru sau pe acoperiș și nu încărcați acoperișul; îndepărtați cu grijă acumulările de zăpadă fără a urca pe acoperiș. • Purtați mănuși de protecție adecvate în timpul montajului și întreținerii și evitați rănirea provocată de așchii de lemn sau de muchiile ascuțite ale componentelor deteriorate. • Țineți flăcările deschise, grătarele și sursele puternice de căldură departe de seră. • Eliminați separat lemnul, panourile/geamurile și feroneria metalică în conformitate cu reglementările locale; nu le ardeți.

Important Safety Notice!

Yardistry components are intended for privacy, decorative and ornamental use only.

Product is NOT INTENDED for the following:

- A safety barrier to prevent unsupervised access to pools, hot tubs, spas or ponds.
- As load bearing support for a building, structure, heavy objects or swings.
- Used in structures that trap wind, rain or snow that would create extra load on the product.

DO NOT climb or walk on roof for any reason.

Permanent structures may require a building permit. As the purchaser and or installer of this product you are advised to consult local planning, zoning and building inspection departments for guidance on applicable building codes and/or zoning requirements.

Wood is NOT flame retardant and will burn. Grills, fire pits and chimineas are a fire hazard if placed too close to a Yardistry structure. Consult user's manual of the grill, fire pit or chiminea for safe distances from combustible materials.

Wear gloves to avoid injury from possible sharp edges of individual elements before assembly.

During installation, follow all safety warnings provided with your tools and use OSHA approved safety glasses. Some structures may require two or more people to install safely.

Check for underground utilities before digging or driving stakes into the ground!

During assembly it is important to closely follow the instructions. Complete the assembly on a solid, level surface and follow the instructions to square up, level and anchor the structure. This will reduce the gaps at wood connections during assembly.

General Information

General Information: Wood components are manufactured with Cedar (C. Lanceolata) which is protected with factory applied water-based stain. Knots, small checks (cracks) and weathering are naturally occurring and do not affect the strength of the product. Annual application of a water-based water repellent sealant or stain is important and will help reduce weathering and checks.

Limited Warranty

Yardistry warrants that this product is free from defect in materials and workmanship for a period of one (1) year from the original date of purchase. In addition, for any product with lumber, all lumber is warranted for five (5) years against rot and decay. Polycarbonate panels are warranted for five (5) years against defect in materials and workmanship. This warranty applies to the original owner and registrant and is non-transferable.

Regular maintenance is required to assure the integrity of your product and is a requirement of the warranty. This warranty does not cover any inspection costs.

This Limited Warranty does not cover:

- Labour for replacement of any defective item(s);
- Incidental or consequential damages;
- Cosmetic defects which do not affect performance or integrity;
- Vandalism; improper use or installation; acts of nature, including but not limited to wind, storms, hail, floods, excessive water exposure;
- Minor twisting, warping, checking or any other natural occurring properties of wood that do not affect performance or integrity.

Yardistry products have been designed for safety and quality. Any modifications made to the original product could damage the structural integrity of the product leading to failure and possible injury. Yardistry cannot assume any responsibility for modified products. Furthermore, modification voids any and all warranties.

This product is warranted for RESIDENTIAL USE ONLY. Yardistry disclaims all other representations and warranties of any kind, express or implied.

This Warranty gives you specific legal rights. You may have other rights as well which vary from state to state or province to province. This warranty excludes all consequential damages, however, some states/provinces do not allow the limitation or exclusion of consequential damages, and therefore this limitation may not apply to you.

Instructions for Proper Maintenance

Your Yardistry structure is designed and constructed of quality materials. As with all outdoor products it will weather and wear. To maximize the enjoyment, safety and life of your structure it is important that you, the owner, properly maintain it.

HARDWARE:

- Check metal parts for rust. If found, sand and repaint using a non-lead paint complying with 16 CFR 1303.
- Inspect and tighten all hardware after completion of assembly; after first month of use; and then annually. Do not over-tighten as to cause crushing and splintering of wood.
- Check for sharp edges or protruding screw threads, add washers if required.

WOOD PARTS:

- Applying a water repellent or stain (water-based) on a yearly basis is important maintenance to maintain maximum life and performance of the product.
- Check all wood members for deterioration, structural damage and splintering. Sand down splinters and replace deteriorated wood members. As with all wood, some checking and small cracks in grain is normal
- Some gapping may occur at some wood connections.

POLYCARBONATE PANELS:

- Clean panels with mild soap and water using a soft cloth or sponge.
- Inspect silicone seal around each panel for separation. Reapply silicone seal as needed.

DOUBLE SPRING TEMPERATURE CONTROL:

- At the end of the warm weather season the cylinder must be removed from the greenhouse and stored in a dry place.
- Lubricate the cylinder before re-installing each time.

Assembly Guides

Tools Required:

- Tape Measure
- Standard or Cordless Drill
- Caulking Gun
- Safety Glasses
- 6' Step Ladder
- Safety Gloves
- Adult Helper

Symbols:

Throughout these instructions symbols are provided in the top, right-hand corner of the page.

- Use Help, where this is shown, 2, 3 or 4 people are required to safely complete this step. To avoid injury or damage to the assembly make sure to get some help.

- Use a measuring tape to ensure proper location

- Pre-drill a pilot hole before fastening screw or lag to prevent splitting of wood.

If you dispose of your Yardistry structure: Please disassemble and dispose of your unit so that it does not create any unreasonable hazards at the time it is discarded. Be sure to follow your local waste ordinances.

Assembly Tips

Following are some helpful tips to make the assembly process smooth and efficient.

PRE-ASSEMBLY:

- Work on a raised, solid and flat surface such as a table or saw horse.
- Keep all connections flush where shown in the instructions.
- When assembling, keep parts flat, straight and snug when connecting.

POLYCARBONATE PARTS:

- Material may have sharp edges, wear safety gloves.
- Remove all plastic covering, on both sides of the polycarbonate panels, directly before installing each piece.
- Place polycarbonate parts on a non-abrasive surface before and after assembly as it can bend, dent and scratch easily.
- When standing on the outside of the unit, the notch in the polycarbonate panel needs to be on the bottom right-hand side.
- Remove protective film immediately before installing panels.

TAPE:

- Do not substitute tape.
- Tape should be applied in temperatures above 10°C (50°F).

DOUBLE SPRING TEMPERATURE CONTROL:

- Before installing, place black cylinder in the refrigerator for approximately 5-7 minutes or until cylinder rod has fully retracted.
- Automatic ventilation will not occur in temperatures above 50°C (122°F).
- The Double Spring Temperature Control is designed to automatically open and close with changes in temperature. It must not be opened or closed manually. Doing so will result in damage to the component.

GUIDE SPACERS:

- Included to help align grooves in wood parts to properly install polycarbonate panels.

WINTER PREPARATION:

- Any accumulated snow must be removed from roof.

Sealant Application Tips, Warning and First Aid Information

SEALANT:

- All surfaces to be clean, dry, dust and grease free before application with temperatures above 5°C (41°F), no warmer than 35°C (95°F).
- Cut tip off sealant tube, attach supplied nozzle and use a caulking gun to apply small beads. See below images.
- Apply sealant in small beads and smooth as required.
- To smooth sealant into the joint use a glove covered finger, putty knife, etc. Smooth sealant to create a continuous water-tight seal.
- Clean excess with a cloth or paper towel before it skins over.
- An initial bond will set in approximately 20 minutes and fully set in 24 hours.

WARNING:

- CAUSES SERIOUS EYE AND SKIN IRRITATION. Always wear safety glasses and rubber gloves when using product.
- KEEP OUT OF REACH OF CHILDREN.
- Prolonged or repeated exposure MAY CAUSE ORGAN DAMAGE. Provide ample ventilation.

FIRST AID:

- If ingested, DO NOT INDUCE VOMITING. Seek immediate medical attention.
- Eye contact: immediately flush eyes with water for at least 15 minutes. Remove contact lenses if present.
- Skin contact; wash thoroughly with soap and water. If eye/skin irritation persists or respiratory symptoms occur or develop, seek medical attention.

Use of this product can expose you to chemicals including Methanol, which is known to the State of California to cause birth defects and other reproductive harm. For more information, go to www.P65Warnings.ca.gov.

Dispose of contents and container in accordance with local regulations.

*Step 1: Cut off
tip of tube*

*Step 2: Attached
supplied nozzle*

*Step 3: Put tube
in caulking gun*

51pc. Pan Screw #8 x 1/2"
(Y06418-502)

48pc. Truss Screw #8 x 7/8"
(Y06491-505)

1pc. #2 x 2" Robertson Driver
(Y00400-005)

1pc. - 1/8" Drill Bit
(Y00400-002)

Step 1: Inventory Parts - Read This Before Starting Assembly

- A.** This is the time for you to inventory all your hardware, wood and accessories, referencing the parts identification sheets. This will assist you with your assembly.
- Each step indicates which bolts and/or screws you will need for assembly, as well as any flat washers, lock washers, t-nuts or lock nuts.
- B.** If there are any missing or damaged pieces or you need assistance with assembly please contact the consumer relations department directly. Call us before going back to the store.
- 1-888-509-4382**
support@yardistrystructures.com
- C.** Read the assembly manual completely, paying special attention to ANSI warnings; notes; and safety/maintenance information on pages 1 - 6.
- Follow the instructions in order.
 - This structure is designed to be assembled and installed ideally by four people, DO NOT attempt to install alone.
 - Consider the slope of elevation where you plan to install the structure. Also, check for gas, telephone, other utilities or sprinkler line locations prior to excavating any holes.
- D.** Before you discard your cartons fill out the form below.
- The carton I.D. stamp is located on the end of each carton.
 - Please retain this information for future reference. You will need this information if you contact the Consumer Relations Department.

PRODUCT NUMBER: YM12857

CARTON I.D. STAMP: _ _ _ _ _ 14459 _ (Box 1)

IMPORTANT! POLYCARBONATE INFORMATION

- Each polycarbonate panel has a UV coating on only ONE (1) side of the panel.
- To install properly so the UV coating is on the outside of the panel, the notch in the panel needs to be oriented to the bottom right-hand side of the assembly when on the outside facing the unit.

- Remove film immediately before installing tape to prevent damage to the panels.

IMPORTANT! ANTI-DUST TAPE INFORMATION

- Two (2) different tapes are supplied. One for the top of the panels and one for the bottom.

Top

Bottom

- Do NOT apply tape in direct sunlight.
- All surfaces must be clean and dry before installing the tape.
- Tape should be cut 2" (5.08 cm) longer than the width of the panel so it wraps around the corners and up the panel by 1" (2.54 cm) on each side.
- Remove the backing on the tape, centre it on the polycarbonate panel so it is equal on both sides. Fold the tape around the edges and rub gently to avoid damaging the tape.

Step 2: Front Wall Assembly Part 1

A: At the bottom of one (1759) Right Door Post and one (1760) Left Door Post place one (1764) Front Base. Pre-drill with a 1/8" drill bit then attach with two #8 x 2-1/4" Wood Screws per post. Make sure angle cuts of posts point towards centre. Posts are flush to the ends of (1764) Front Base. (F2.1 and F2.2)

Wood Parts

- 1 x (1759) Right Door Post
- 1 x (1760) Left Door Post
- 1 x (1764) Front Base

Hardware

- 4 x #8 x 2-1/4" Wood Screw

Step 2: Front Wall Assembly Part 2

B: Flush to the front and centered on top of (1843) Front Top place one (1779) Upright. Use one (1188) Guide Spacer in the grooves of (1843) Front Top for proper spacing of Upright. Pre-drill with a 1/8" drill bit then attach (1843) Front Top to (1779) Upright with one #8 x 3-1/2" Wood Screw. Remove (1188) Guide Spacer. (F2.3 and F2.4)

C: Place (1843) Front Top in between (1759) Right Door Post and (1760) Left Door Post. (1843) Front Top should be flush to the front and tops of posts. Attach posts to (1843) Front Top with two #8 x 3-1/2" Wood Screws per post. (F2.5 and F2.6)

F2.4

F2.3

F2.5

F2.6

Wood Parts

- 1 x (1779) Upright
- 1 x (1843) Front Top

Hardware

- 5 x #8 x 3-1/2" Wood Screw

Step 2: Front Wall Assembly Part 3

Remove film from both sides of Gable Panel.

D: Refer to pages 13 and 14 and apply top and bottom tape to Gable Panel. (F2.7)

E: Slide Gable Panel down into the grooves of (1843) Front Top. The UV coated side must be to the outside of the frame. Make sure the notch at the bottom is on the right side of the panel. (F2.7 and F2.8)

F: Place one (1766) L Roof Rafter and one (1767) Vent R Roof Rafter on each side of the Gable Panel so the ends overhang (1760) Left Door Post and (1759) Right Door Post by 1-1/4" (3.18 cm). They will sit tight to (1779) Upright. Attach rafters to posts with two #10 x 4" Wood Screws per post. (F2.8, F2.9 and F2.10)

**F2.8
Outside View**

F2.7

**F2.9
Outside View**

F2.10

Wood Parts

- 1 x (1766) L Roof Rafter
- 1 x (1767) Vent R Roof Rafter

Components

- 1 x Gable Panel
- Top Tape
- Bottom Tape

Hardware

- 4 x #10 x 4" Wood Screw

Step 3: Back Wall Assembly Part 1

A: At the bottom of one (1762) Left Post and one (1761) Right Post place one (1763) Back Base. Pre-drill with a 1/8" drill bit then attach with two #8 x 2-1/4" Wood Screws per post. Make sure grooves in posts are facing inwards and to the back and holes in (1763) Back Base are at the top. Posts are flush to the ends of (1763) Back Base. (F3.1 and F3.2)

Wood Parts

- 1 x (1762) Left Post
- 1 x (1761) Right Post
- 1 x (1763) Back Base

Hardware

- 4 x #8 x 2-1/4" Wood Screw

Step 3: Back Wall Assembly Part 2

B: In the grooves of each post slide one (1797) Back Wall Assembly down so it rests tight to the top of the (1763) Back Base. Pre-drill with a 1/8" drill bit then attach posts to (1797) Back Wall Assembly with two #8 x 3-1/2" Wood Screws per post. (F3.3 and F3.4)

C: Pre-drill with a 1/8" drill bit then attach (1763) Back Base to (1797) Back Wall Assembly with six #8 x 2-1/4" Wood Screws. (F3.4)

F3.3

F3.4

Wood Parts

1 x (1797) Back Wall Assembly

Hardware

4 x #8 x 3-1/2" Wood Screw
6 x #8 x 2-1/4" Wood Screw

Step 3: Back Wall Assembly Part 3

D: Place one (1774) Back Sill on top of (1797) Back Wall Assembly. Use (1188) Guide Spacer in the grooves of each post and (1774) Back Sill to line up Posts. Pre-drill with a 1/8" drill bit then attach (1774) Back Sill to (1797) Back Wall Assembly with four #8 x 2-1/4" Wood Screws. Remove (1188) Guide Spacers. (F3.5, F3.6 and F3.7)

Wood Parts

1 x (1774) Back Sill

Hardware

4 x #8 x 2-1/4" Wood Screw

Step 3: Back Wall Assembly Part 4

E: Turn assembly over, then place one (1773) Back Upright centred over the pilot holes on the underside of (1774) Back Sill, placing (1188) Guide Spacers in the grooves to line up correctly. Make sure (1773) Back Upright is evenly spaced between posts. Pre-drill with a 1/8" drill bit then attach (1774) Back Sill to (1773) Back Upright with two #8 x 3-1/2" Wood Screws. Remove (1188) Guide Spacers. (F3.8 and F3.9)

F3.8

F3.9

Wood Parts

1 x (1773) Back Upright

Hardware

2 x #8 x 3-1/2" Wood Screw

Step 3: Back Wall Assembly Part 5

Remove film from both sides of Back Wall Panels.

F: Refer to pages 13 and 14 and apply top and bottom tape to Back Wall Panel. (F3.10 and F3.11)

G: Turn assembly over, then in the grooves of Left and Right Posts and Back Upright slide Back Wall Panels down to fit in the grooves of (1774) Back Sill. Make sure the notch at the bottom is always on the right side of the panel. The UV coated side must be to the outside of the frame. (F3.10, F3.11 and F3.12)

F3.10

F3.11

F3.12

Note: UV Coating to the outside of the frame

Components

2 x Back Wall Panel
Top Tape
Bottom Tape

Step 3: Back Wall Assembly Part 6

H: Flush to the front and centered on top of (1780) Back Top place one (1779) Upright. Use one (1188) Guide Spacer in the grooves of (1780) Back Top for proper spacing of Upright. Pre-drill with a 1/8" drill bit then attach (1780) Back Top to (1779) Upright with one #8 x 3-1/2" Wood Screw. Remove (1188) Guide Spacer. (F3.13 and F3.14)

Wood Parts

- 1 x (1779) Upright
- 1 x (1780) Back Top

Hardware

- 1 x #8 x 3-1/2" Wood Screw

Step 3: Back Wall Assembly Part 7

I: Place (1780) Back Top on top of (1773) Back Upright in between (1761) Right Post and (1762) Left Post. (1780) Back Top should be flush to the front of posts and upright. Use (1188) Guide Spacers in the grooves of (1780) Back Top and posts for proper spacing. (F3.15, F3.16 and F3.17)

J: Pre-drill with a 1/8" drill bit then attach posts to (1780) Back Top with two #8 x 3-1/2" Wood Screws per post and (1780) Back Top to (1773) Back Upright with two #8 x 3-1/2" Wood Screws. (F3.15, F3.16 and F3.17)

Hardware

6 x #8 x 3-1/2" Wood Screw

Step 3: Back Wall Assembly Part 8

Remove film from both sides of Gable Panel.

K: Refer to pages 13 and 14 and apply top and bottom tape to Gable Panel. (F3.18)

L: Slide Gable Panel down into the grooves of (1780) Back Top. Make sure the notch at the bottom is on the right side of the panel. The UV coated side must be to the outside of the frame. (F3.18 and F3.19)

Components

1 x Gable Panel

Top Tape

Bottom Tape

Step 3: Back Wall Assembly Part 9

M: Place one (1765) R Roof Rafter and one (1768) Vent L Roof Rafter on each side of the Gable Panel so the ends overhang (1762) Left Post and (1761) Right Post by 1-1/4" (3.18 cm). They will sit tight to (1779) Upright. Attach rafters to posts with two #10 x 4" Wood Screws per post. (F3.20, F3.21 and F3.22)

F3.20
Outside View

F3.21

F3.22
Outside View

Wood Parts

- 1 x (1765) R Roof Rafter
- 1 x (1768) Vent L Roof Rafter

Hardware

- 4 x #10 x 4" Wood Screw

Step 4: Vent Wall Assembly

Part 1

A: On the outside of one (1790) Vent Wall Panel Assembly place two Metal Vents over the openings and attach with four #8 x 1/2" Pan Screws per Metal Vent. The openings of the Metal Vent louvers should face down. (F4.1)

B: At the bottom of (1790) Vent Wall Panel Assembly, flush to the outside face and edges, place one (1777) Side Base and attach with four #8 x 2-1/4" Wood Screws. (F4.2)

Wood Parts

- 2 x (1790) Vent Wall Panel Assembly
- 2 x (1777) Side Base

Components

- 4 x Metal Vent

Hardware

- 16 x #8 x 1/2" Pan Screw
- 8 x #8 x 2-1/4" Wood Screw

Step 4: Vent Wall Assembly Part 2

C: On the inside of (1790) Vent Wall Panel Assembly, flush to the inside edges of the openings, place two (1810) Vent T/B Trims and two (1811) Vent Side Trims over each opening so they fit tight together. Attach with three #8 x 7/8" Truss Screws per (1810) Vent T/B Trim and two #8 x 7/8" Truss Screws per (1811) Vent Side Trim. (F4.3)

D: Repeat Steps A - C for a second Vent Wall Assembly.

Wood Parts

8 x (1810) Vent T/B Trim
8 x (1811) Vent Side Trim

Hardware

40 x #8 x 7/8" Truss Screw

Step 5: Side Wall Assembly Part 1

A: With the Metal Vent side facing out, insert tongue of (1790) Vent Wall Panel Assemblies in the grooves of (1759) Right Door Post and (1760) Left Door Post of Front Wall Assembly. Pre-drill with a 1/8" drill bit then attach posts to panels with two #8 x 3-1/2" Wood Screws per post. (F5.1, F5.2, F5.3 and F5.4)

Hardware

4 x #8 x 3-1/2" Wood Screw

Step 5: Side Wall Assembly Part 2

B: Place one (1771) Side Sill on top of each (1790) Vent Wall Panel Assembly. Use (1188) Guide Spacer in the grooves of each post and (1771) Side Sill to line up to post and sill grooves. (1771) Side Sills are flush to the inside of the posts. Attach (1771) Side Sills to (1790) Vent Wall Panel Assemblies with three #8 x 2-1/4" Wood Screws per panel. Remove (1188) Guide Spacers. (F5.5, F5.6 and F5.7)

Wood Parts

2 x (1771) Side Sill

Hardware

6 x #8 x 2-1/4" Wood Screw

Step 5: Side Wall Assembly Part 3

Remove film from both sides of Side Wall Panels.

C: Refer to pages 13 and 14 and apply top and bottom tape to Side Wall Panels. Make sure Top Tape does not cover holes. (F5.8 and F5.9)

D: In the grooves of (1771) Sides Sill slide one Side Wall Panel to fit in the grooves of each post. Make sure the notch at the bottom of the panel is always on the right side of the wall. The UV coated side must be to the outside of the frame. (F5.8, F5.9 and F5.10)

F5.8

F5.9

Note: Notches always at the bottom right of each panel

F5.10

Components

2 x Side Wall Panel
Top Tape
Bottom Tape

Step 5: Side Wall Assembly Part 4

E: Place Back Wall Assembly against Side Wall Assemblies so (1790) Vent Wall Panel Assemblies and Side Wall Panels fit in the grooves of (1761) Right Post and (1762) Left Post. Pre-drill with a 1/8" drill bit then attach posts to (1790) Vent Wall Panel Assemblies with two #8 x 3-1/2" Wood Screws per post. (F5.11 and F5.12)

F5.12

Hardware

4 x #8 x 3-1/2" Wood Screw

Step 5: Side Wall Assembly Part 5

F: On each Side Wall Assembly, place one (1772) Side Top tight to posts so notches are tight to bottom of rafters and flush to the outside of posts. Attach (1772) Side Tops to posts with two #8 x 1-1/2" Wood Screws per post. (F5.13 and F5.14)

F5.13

F5.14

Wood Parts

2 x (1772) Side Top

Hardware

8 x #8 x 1-1/2" Wood Screw

Step 6: Attach Corner Brackets

A: On the inside of the assembly, using one Corner Bracket per corner connect (1764) Front Base and (1763) Back Base to (1777) Side Bases with two #8 x 7/8" Truss Screws per bracket. Corner Brackets are flush to the tops of the bases. (F6.1 and F6.2)

Components

4 x Corner Bracket

Hardware

8 x #8 x 7/8" Truss Screw

Step 7: Roof Ridge Assembly

A: Place (1769) Roof Vent Ridge against one (1770) Roof Ridge so the groove in (1770) Roof Ridge is facing out and screw holes are towards the bottom. Attach with three #8 x 2-1/4" Wood Screws. This creates a Roof Ridge Assembly. (F7.1)

B: Place Roof Ridge Assembly in between Roof Rafters, tight against (1779) Uprights. Place (1188) Guide Spacers in grooves of Roof Ridge Assembly, (1765) R Roof Rafter and (1766) L Roof Rafter. Attach (1779) Uprights to Roof Rafter Assembly with two #8 x 3-1/2" Wood Screws per end. Attach Roof Rafters to Roof Ridge Assembly with one #8 x 3-1/2" Wood Screw per Roof Rafter. Remove (1188) Guide Spacers. (F7.2 and F7.3)

Wood Parts

- 1 x (1769) Roof Vent Ridge
- 1 x (1770) Roof Ridge

Hardware

- 3 x #8 x 2-1/4" Wood Screw
- 8 x #8 x 3-1/2" Wood Screw

Step 8: Attach PC U-Channels

A: On the top of each Side Wall Panel place one PC U-Channel. (F8.1 and F8.2)

B: Attach each Side Wall Panel to (1772) Side Tops using four #10 x 1-1/4" Black Pan Screws with EPDM washers per panel. (F8.3 and F8.4)

Components

2 x PC U-Channel

Hardware

8 x #10 x 1-1/4" Black Pan Screw

8 x EPDM Washer

Step 9: Install Roof Panel

Part 1

Remove film from both sides of Roof Panel.

A: Refer to pages 13 and 14 and apply top and bottom tape to Roof Panel. (F9.1 and F9.2)

F9.1

F9.2

Components

- 1 x Roof Panel
- Top Tape
- Bottom Tape

Step 9: Install Roof Panel Part 2

B: Slide one Roof Panel in the grooves of (1765) R Roof Rafter and (1766) L Roof Rafter to fit in grooves of Roof Ridge Assembly. Holes are at the bottom of the panel. Make sure the notch at the bottom of the panel is always on the right side of the wall. The UV coated side must be to the outside. (F9.1, F9.2 and F9.3)

C: On the bottom of Roof Panel place one PC U-Channel with a gap of approximately 1/8" (3.175 mm) between end of Roof Panel and PC U-Channel then pre-drill with a 1/8" drill bit and attach Roof Panel to (1772) Side Top using four #10 x 1-1/4" Black Pan Screws with EPDM washers. (F9.3, F9.4 and F9.5)

Components

1 x PC U-Channel

Hardware

4 x #10 x 1-1/4" Black Pan Screw

4 x EPDM Washer

Step 10: Apply Sealant

A: On both the inside and outside of the assembly apply silicone sealant on all sides of Roof Panel as shown in F10.1, F10.2 and F10.3. Sealant should be applied in small beads and smoothed out.

B: From outside the assembly, on Back Wall and both Side Walls apply silicone sealant on sides and bottom of Back Panels and Side Panels. Sealant should be applied in small beads and smoothed out. (F10.1)

C: From outside the assembly, on Front and Back Walls apply silicone sealant on bottom of Gable Panels. Sealant should be applied in small beads and smoothed out. (F10.1 and F10.2)

D: From outside the assembly, where (1769) Roof Vent Ridge and (1770) Roof Ridge connect, apply silicone sealant. Sealant should be applied in small beads and smoothed out. (F10.1 and F10.2)

Note: All surfaces to be clean, dry, dust and grease free before application with temperatures above 5°C (41°F), no warmer than 35°C (95°F).

- Cut off tip of tube, attach supplied nozzle then put in caulking gun. See page 6.
- Apply sealant in small beads and smooth as required.
- Clean excess with a cloth or paper towel before it skins over.
- Always wear safety glasses and rubber gloves when using product.

See page 6 for Warning and First Aid Information.

Components

Sealant

Step 11: Attach Vent Mount Block

A: On inside the assembly, against (1761) Right Post of Back Wall, place (1778) Vent Mount Block, flush to inside edge of post and to top of (1780) Back Post. Attach (1778) Vent Mount Block to (1761) Right Post and (1780) Back Top with two #8 x 3-1/2" Wood Screws. (F11.1 and F11.2)

Back Wall

F11.1

F11.2
Inside View

Wood Parts

1 x (1778) Vent Mount Block

Hardware

2 x #8 x 3-1/2" Wood Screw

IMPORTANT!

DOUBLE SPRING TEMPERATURE CONTROL INFORMATION

- **The Double Spring Temperature Control is designed to automatically open and close with changes in temperature. It must not be opened or closed manually. Doing so will result in damage to the component.**
- To change the opening temperature of the component:
 - One complete clockwise turn of the black cylinder will increase the opening temperature of the component by $0.5^{\circ}\text{C}/1^{\circ}\text{F}$
 - One counterclockwise turn will decrease the opening temperature of the component by $0.5^{\circ}\text{C}/1^{\circ}\text{F}$
- The opening temperature of this component can be set to open in temperatures between $16^{\circ}\text{C}/60^{\circ}\text{F}$ and $25^{\circ}\text{C}/77^{\circ}\text{F}$
- The black cylinder is the temperature sensitive component. This should never be used as a pry to manually open or close the vent.
- The cylinder must be in the closed position before it can be removed from the component. To remove the cylinder, remove the pin and unscrew the cylinder.

Double Spring Temperature Control Part Breakdown

Components

1 x Double Spring Temperature Control

Step 12: Attach Bracket to Vent Mount Block

A: Take the Bracket from frame of Double Spring Temperature Control and place 2" down from top of (1778) Vent Mount Block, flush to the front. Pre-drill with a 1/8" drill bit then attach with two #10 x 1-1/4" Pan Screws. (F12.1, F12.2 and F12.3)

F12.1

F12.2

F12.3

Hardware

2 x #10 x 1-1/4" Pan Screw

Step 13: Assemble Double Spring Temperature Control Part 1

A: Remove Spring from each side of Double Spring Temperature Control. (F13.1)

F13.1

B: Insert Assembly Pin into holes on Frame Arm. (F13.2)

F13.2

C: On a flat surface open Double Spring Temperature Control as shown in F13.3.

F13.3

D: Insert Cylinder Thread into Cylinder Nut so there is equal amounts of thread on each side. (F13.4 and F13.5)

E: Make sure hole in Piston Rod is facing the same direction as holes in T-Tube then insert Piston Rod into T-Tube aligning the hole in Piston Rod to the second hole in T-Tube. (F13.4 and F13.5)

F13.4

F13.5

Step 13: Assemble Double Spring Temperature Control Part 2

F: From the bottom of T-Tube and Piston Rod insert Cylinder Pin as shown in F13.6 and F13.7.

G: Remove Assembly Pin from Frame Arm. Keep pin for future use. (F13.8)

Step 13: Assemble Double Spring Temperature Control Part 3

H: Re-attach Springs to T-Tube posts making sure they are seated in the grooves of the posts. (F13.9 and F13.10)

I: Re-attach other end of Springs to Cylinder Nut posts making sure they are seated in the grooves of the posts. (F13.11 and F13.12)

F13.10

Step 14: Install Vent Roof Part 1

A: At the top of (1802) Vent Roof centre Continuous Hinge, pre-drill with a 1/8" drill bit then attach with 12 #8 x 1/2" Pan Screws as shown in F14.1, F14.2 and F14.3. Centering hinge will prevent ends of (1802) Vent Roof from splitting.

Wood Parts

1 x (1802) Vent Roof

Components

1 x Continuous Hinge

Hardware

12 x #8 x 1/2" Pan Screw

Step 14: Install Vent Roof Part 2

B: Turn (1802) Vent Roof over, measure 5" (12.7 cm) up from bottom of (1802) Vent Roof and mark location. Place assembled Double Spring Temperature Control so Window Bracket is flush to right inside edge. Pre-drill centre of Window Bracket slots with a 1/8" drill bit then attach with two #10 x 1-1/4" Pan Screws. (F14.4, F14.5 and F14.6)

Hardware

2 x #10 x 1-1/4" Pan Screw

Step 14: Install Vent Roof Part 3

C: Place (1802) Vent Roof on top of Greenhouse assembly so the Double Spring Temperature Control is on the inside and next to the Back Wall. The Continuous Hinge should fit flat to (1769) Roof Vent Ridge. Attach Continuous Hinge to (1769) Roof Vent Ridge with 12 #8 x 1/2" Pan Screws. (F14.7 and F14.8)

D: Press together the bottom of Frame Arm directing it to Bracket on (1778) Vent Mount. Line up posts in Frame Arm with holes in Bracket and release Frame Arm. (F14.7, F14.9, F14.10 and F14.11)

Hardware

12 x #8 x 1/2" Pan Screw

Step 15: Install Corner Shelves

A: On the Back Wall place one (1783) Corner Shelf A tight to each post, (1774) Back Sill and each (1771) Side Sill. Attach (1783) Corner Shelf A to Back and Side Sills with four #8 x 1-1/2" Wood Screws per shelf. (F15.1, F15.2 and F15.3)

B: Tight to each (1783) Corner Shelf A place one (1784) Corner Shelf B and attach with four #8 x 1-1/2" Wood Screws per shelf. (F15.1, F15.2 and F15.3)

Wood Parts

2 x (1783) Corner Shelf A
2 x (1784) Corner Shelf B

Hardware

16 x #8 x 1-1/2" Wood Screw

Step 16: Install Back Wall Shelves Part 1

A: On the Back Wall, at desired heights, place two (1781) Shelf Gussets on each (1761) Right Post, (1762) Left Post and (1773) Back Upright, as shown in F16.1. Three gussets on each level need to be at equal heights. Make sure to leave enough room at top level to be able to use drill when attaching (1782) Shelf Tops. Attach gussets with two #8 x 3-1/2" Wood Screws per gusset. (F16.1 and F16.2)

Note: Both (1781) Shelf Gussets on (1773) Back Upright must be centred.

Wood Parts

6 x (1781) Shelf Gusset

Hardware

12 x #8 x 3-1/2" Wood Screw

Step 16: Install Back Wall Shelves Part 2

B: Place two (1782) Shelf Tops on each set of (1781) Shelf Gussets so they are tight to (1761) Right Post, (1762) Left Post and (1773) Back Upright and flush to the front of each gusset. Attach (1782) Shelf Tops to gussets with six #8 x 1-1/2" Wood Screws per board. (F16.3 and F16.4)

Wood Parts

4 x (1782) Shelf Top

Hardware

24 x #8 x 1-1/2" Wood Screw

Step 17: Prepare Door Opening Part 1

A: On the Front Wall place one (1775) Side Door Stop flush to the inside of (1759) Right Door Post and (1760) Left Door Post. Attach (1775) Side Door Stop to each post with four #8 x 1-1/2" Wood Screws per post. (F17.1 and F17.2)

B: Place one (1776) T/B Door Stop on (1843) Front Top and one on (1764) Front Base, flush to each (1775) Side Door Stop then attach with three #8 x 1-1/2" Wood Screws per board. (F17.3 and F17.4)

Wood Parts

2 x (1775) Side Door Stop
2 x (1776) T/B Door Stop

Hardware

14 x #8 x 1-1/2" Wood Screw

Step 17: Prepare Door Opening

Part 2

C: At each corner of the Front Wall place one Corner Brace flush to inside of each (1775) Side Door Stop and each (1776) T/B Door Stop. Attach Corner Braces with four #7 x 3/4" Wood Screws per brace. (F17.5 and F17.6)

F17.5

F17.6

Components

4 x Corner Brace

Hardware

16 x #7 x 3/4" Wood Screw

Step 18: Door Assembly Part 1

A: On the outside of (1785) Door A Panel and (1807) Door B Panel install one Door Handle using included screws. (F18.1, F18.2, F18.3 and F18.4)

B: On the opposite side of the Door Handle measures 1" (2.54 cm) down from the top of each panel and 3" (7.62 cm) up from the bottom of each panel then place one Square Hinge per measured location. Pre-drill with a 1/8" drill bit then attach using three #7 x 3/4" Wood Screws per hinge. (F18.1, F18.2 and F18.5)

C: Place a third Square Hinge centred on each panel between the first two hinges and attach using three #7 x 3/4" Wood Screws per hinge. (F18.1, F18.2 and F18.5)

Wood Parts

- 1 x (1785) Door A Panel
- 1 x (1807) Door B Panel

Components

- 2 x Door Handle
- 6 x Square Hinges

Hardware

- 18 x #7 x 3/4" Wood Screw

Step 18: Door Assembly Part 2

D: On the inside of the (1785) Door A Panel measure 5/8" (1.59 cm) from the top and bottom of the panel and 3-1/4" (8.26 cm) in from handle side of the panel then place one Magnetic Catch Plate at each location and attach with one #8 x 1/2" Pan Screw per plate. (F18.6, F18.7 and F18.8)

Components

2 x Magnetic Catch Plate

Hardware

2 x #8 x 1/2" Pan Screw

Step 18: Door Assembly Part 3

E: Place (1188) Guide Spacer on (1764) Front Base to set spacing for (1785) Door Panel A placement. Set (1785) Door Panel A on (1188) Guide Spacer then attach Square Hinges to post with three #7 x 3/4" Wood Screws per hinge. Remove (1188) Guide Spacer. (F18.9 and F18.10)

F: On the each (1776) T/B Door Stop, flush to the inside, place one Magnetic Catch so they line up with the Magnetic Catch Plates on (1785) Door Panel A then attach with two #8 x 1/2" Pan Screws per Magnetic Catch. (F18.9, F18.11 and F18.12)

Components

2 x Magnetic Catch

Hardware

9 x #7 x 3/4" Wood Screw

4 x #8 x 1/2" Pan Screw

Step 18: Door Assembly Part 4

G: Place (1188) Guide Spacer on (1764) Front Base to set spacing for (1807) Door Panel B placement. Set (1807) Door Panel B on (1188) Guide Spacer then attach Square Hinges to post with three #7 x 3/4" Wood Screws per hinge. Remove (1188) Guide Spacer. (F18.13 and F18.14)

F18.13

F18.14
Outside View

Hardware

9 x #7 x 3/4" Wood Screw

Step 19: Attach Plaques

A: Attach Gazebo ID Plaque to a prominent location on your greenhouse, such as inside the greenhouse above the door, with two #8 x 1/2" Pan Screws. This provides warnings concerning safety and important contact information. A tracking number is provided to allow you to get critical information or order replacement parts for this specific model (F19.1)

B: From outside the assembly, flush to the tops of (1767) Vent R Roof Rafter, (1766) L Roof Rafter and (1779) Upright, place Yardistry Plaque then attach with three #8 x 1/2" Pan Screws. (F19.2)

F19.1
Inside View

F19.2
Outside View

Components

- 1 x Gazebo ID Plaque
- 1 x Yardistry Plaque

Hardware

- 5 x #8 x 1/2" Pan Screw

Step 20: Attach Anchoring Corner Brackets

Please complete Option A or Option B depending on where the final location of the assembly will be.

To mount your structure permanently consult with your local building centre or authority for proper anchoring hardware.

Option A: On one side of the assembly, from the outside, centred on the bottom of the Side Wall Assembly attach one Corner Bracket with two #10 x 1-1/4" Pan Screws, as shown in F20.1 and F20.2. Attach assembly to ground/platform with proper hardware.

Option B: On one side of the assembly, from the outside, place a Corner Bracket on a Back Wall post, close to the roof, then attach with two #10 x 1-1/4" Pan Screws, as shown in F20.1 and F20.3. Attach assembly to wall with proper hardware.

Components

2 x Corner Bracket

Hardware

4 x #10 x 1-1/4" Pan Screw
