IMPORTANT

Please read these instructions carefully before you start to assemble this greenhouse.
Keep these instructions in a safe place for future reference.

» Customer Service

For assistance with assembly or for replacement parts – please log onto our website or call our service line (number is on the title page).

Additional information can be found at our website: www.palramapplications.com

» Safety Advice

- It is of utmost importance to assemble all of the parts according to the directions. Do not skip any step.
- We strongly recommend using work gloves during assembly.
- Always wear shoes and safety goggles when working with extruded aluminium.
- If using a step ladder or power tools ensure that you follow the manufacturer's safety advice.
- Do not touch overhead power cables with the aluminium profiles.
- Do not attempt to assemble the greenhouse in windy or wet conditions.
- Dispose of all plastic bags. Keep them out of reach of small children.
- Keep children away from the assembly area.
- Do not lean against or push the greenhouse during construction.
- Do not position your greenhouse in an area exposed to excessive wind.
- Do not attempt to assemble this greenhouse if you are tired, have taken drugs or alcohol or if you are prone to dizzy spells.
- Hot items such as recently used grills, blowtorches etc. must not be stored in the greenhouse. Ensure there are no hidden pipes or cables in the ground before inserting the pegs.
- This product is designed to be used as a greenhouse only.

» Care & Maintenance

When your greenhouse needs to be cleaned, use a mild detergent solution and rinse with cold clean water. DO NOT use acetone, abrasive cleaners or other special detergents to clean the clear panels. It is recommended to check periodically that roof panels caps (plastic part 329 & profile 981) are set in place.

» Tools & Equipment

- Work gloves
- Rubber mallet
- Phillips head screwdriver
- Adjustable Spanner / Wrench
- Leveler
- Tape measure
- Silicone spray / Lubricant
- Ladder
- T001 - Special tool for Screws 411 and nuts 412

» Before Assembly

Selecting a site:

- The greenhouse must be positioned and fixed on a flat level surface.
- Choose a sunny position away from overhanging trees.

- ✓ We strongly recommend this greenhouse being secured directly to a solid concrete foundation. When doing that use the pre drilled holes in the metal base.
- ✓ This is a multi-part assembly best achieved by two people. Allow at least a half a day for the assembly process.
- ✓ Take all components & parts out of the packages. Sort the parts and check against the contents parts list.
- ✓ Parts should be laid out close at hand. Keep all small parts (screws etc.) in a bowl so they do not get lost.
- ✓ Please note multi-sided profiles are used in this greenhouse. As a result some holes in the profiles are not used during assembly.
- ✓ Please review entire instructions before starting. Carry out the assembly steps in exact order.
- ✓ Extension Kit assembly instructions are included in this IM. It is possible to purchase one or more kits.
- ✓ Some of the steps and comments (marked) refer only to the Extension Kit.

» Notes During Assembly

- Peel the film covering the panel.
Make sure you install it with the UV protected side up.
- You may use Silicon lubricant spray in order to help you slide the panels into the profiles.
- Do not spray the Polycarbonate panels.
- Use a rubber mallet if necessary.

During assembly you will encounter the information icon, please refer to the relevant assembly step for additional comments and assistance.

Step 13: Tighten the screws once the back beam is set accordingly (**diagram b**)

Step 51: Decide on the window's location before assembly. Windows can be installed in one of the 4 indicated options.

If you have purchased an Extension Kit, please note part **7316** should be assembled with its short end towards the window.

Step 63: In case the window doesn't closed properly, please release the screws, adjust the profile and tighten the screw.

Step 78: Choose the appropriate anchoring according to the existing base. screws and masonry anchors are not supplied.

**Important Recommendations**

- **Firmly connect the greenhouse to a level position immediately after completion of the assembly.**
- **In order to anchor the greenhouse use the designated manufacturer anchoring kit.**
- **Anchoring the greenhouse can also be done by drilling the base profiles and fastening it to the ground using ground screws or spikes (screws and spikes are not supplied).**
- **Tighten all screws once assembly is completed.**
- **Please note: Anchoring this product to the ground is essential to its stability and rigidity. It is required to complete this stage in order for your warranty to be valid.**

- Screws 411 and nuts 412 are used throughout the assembly process.
- Screws 411 are to be assembled from the outside and nuts 412 from the inside of the greenhouse.
- If not specified otherwise, do not fasten screws and nuts (411 & 412) more than 2-3 turns only. Do not tighten them until completion of the panels' assembly. These 2 icons indicate if screws' tightening is required or not.
- However, in some steps, temporary tightening of a few screws may be needed to prevent a profile from falling.
